INSTRUCTIONS

1 THE CAVE CIRCUIT

Difficulty ★★☆☆☆
Elevation ▲ 277m
Distance 🚶 2.85 miles

(1,2,3 & 4) Follow the trail for 1.25 miles, until you reach the entrance to **Ingleborough Cave**, where you can follow in the footsteps of the first brave Victorian explorers by venturing 500 meters beneath Ingleborough mountain. Opening times can be found online.

(1 ONLY) Head back the way you came, until you reach the gateway into the woodland. For a circular route, take a left turn and cross the footbridge over the stream, then head directly up the steep slope, over the stile onto **Long Lane**. Turn right and follow this lane until you reach a t-junction, where you take the right hand turn. Shortly after, you will go through some tunnels, emerging in Clapham by the church and park.

2 TREKKING TO TROW GILL

Difficulty ★★★☆☆
Elevation ▲ 323m
Distance 🚶 3.85 miles

(2,3 & 4) Continue beyond the cave over the bridge and immediately through a farm gate. In approximately another 500 metres you'll reach another similar farm gate, and 250 metres beyond there you will reach **Trow Gill**.

(2 ONLY) Once you have seen the gorge, turn around and walk back down to the most recent gate. Turn left immediately before the gate, through a small gully with a large beech tree to your right, before emerging in a wide open U-shaped valley. Follow the right hand wall up the steep bank, and take the second gate through the wall on to **Long Lane**.

Follow this lane until you reach a fork, where you take the right hand turn. Shortly after, you will go through some tunnels, emerging in **Clapham** by the church and park.

3 GALLOPING TO GAPING GILL

Difficulty ★★★★★
Elevation ▲ 407m
Distance 🚶 5.45 miles

(3 & 4) Continue through **Trow Gill**, from there follow the trodden path parallel to the wall on the left until it comes to an end, where you reach a double stile over the wall. Climb over the stile and follow the natural path that bends to the right. In around 5 minutes you will see a large fence circling a hole. You have reached the surface entrance to the U.K's most famous pothole, **Gaping Gill**.

(3 ONLY) Return to the double stile and instead of turning right and going back the same way, continue straight ahead of you along the trodden path. Eventually you will go down a steep banking and you'll land in the base of a U-shaped valley.

Follow the banking back up to the top of the far side and you will find a wall to your right with a gate onto a path called **Long Lane**. Follow this lane until you reach a t-junction, where you take the right hand turn. Shortly after, you will go through some tunnels, emerging in Clapham by the church and park.

4 CLASSIC INGLEBOROUGH CIRCULAR

Difficulty ★★★★★
Elevation ▲ 723m
Distance 🚶 10.4 miles

(4 ONLY) From **Gaping Gill**, the steep climbing begins. The route is fairly obvious, you go uphill until you reach a small plateau, which is **Little Ingleborough**. Follow the footpath onward, and you will reach one final climb to the summit of **Ingleborough**! From here, follow the ridge along to your right, and take the next path off the summit on to the **Dales High Way**, which follows a footpath east until you reach a clear cross-roads with finger posts. Take the right turn ("**Pennine Bridleway Clapham 3.1/2 ml**"), and follow the footpath and the **Pennine Bridleway** post and arrow markers until you reach a gate through a dry stone wall. Once you have passed through the gate, hug the wall to your left, round the outskirts of the field, until you reach a gate on to **Long Lane**. Follow this lane until you reach a t-junction, where you take the right hand turn. Shortly after, you will go through some tunnels, emerging in Clapham by the church and park.
